# About OSUF Gift Planning

5

*frontline  
fundraisers*

\$62.5M

*in planned gift  
commitments for FY25*

70

*donor and spouse  
must be age 70 by  
end of campaign for  
counting*

\$70M

*in total gift planning  
impact for FY25*

# Today's Focus

- Data-driven strategies for gift planning
- Cross-team collaboration
- Practical applications for pipeline, cultivation & stewardship

**Believe it.** The Campaign for  
Oregon State University

# Gift Planning Data & Collaboration

How data and cross-department partnerships strengthen our work

# Why Data Matters

**TURNING DONOR ACTIVITY INTO INSIGHTS  
THAT SHAPE FUTURE FUNDRAISING  
SUCCESS**

## **Gift Planning Needs:**

- Anticipating future donors
- Honoring intent & stewarding effectively
- Building sustainable fundraising campaigns

# Cross-Department Collaboration

INNOVATIVE SOLUTIONS THROUGH  
SHARED PERSPECTIVES

## Collaboration Benefits:

- Partnerships between Gift Planning and Advancement Services spark innovative solutions
- Shared expertise maximizes data, strengthens GP capture, and grows the pipeline

A photograph of a park with large, mature trees. A bright sun flare is visible in the upper right, casting a warm glow over the scene. In the foreground, a black lamppost stands on the right. In the background, two people are walking on a path, one pushing a bicycle. The overall atmosphere is peaceful and natural.

# Gift Planning Data Projects

A close look at the projects we have implemented

# Project 1: Involvement Coding

## Why Was Change Needed?

- Using one-size-fits-all code for tracking all engagement with the Gift Planning office
- Coding not effective without additional nuance

## Project Objectives:

- Track multiple interactions across time
- Ability to differentiate methods of engagement
- More complete record of a constituent's engagement with our office

o  
o

# Project 1: Involvement Coding

## Project Result

- New coding structure that captures individual interactions with GP Office within four main categories of possible involvement

## Why it Matters:

- Tracks responses (marketing, info requests, referrals)
- Informs segmented marketing lists
- Provides triage for pipeline development

# Involvement Coding

## GP DATA SOURCES & CODING CATEGORIES

### Marketing Response

- Method – virtual or hardcopy
- Info requests by topic-Life income, Retirement, etc.

### Proactive Response

- Method – virtual or hardcopy
- Source – Gift form, webpage, direct outreach, etc.
- Info request vs. Have included

# Involvement Coding

## GP DATA SOURCES & CODING CATEGORIES

### Survey Response

- Method – virtual
- Source – which survey
- Info request vs. have included vs. would consider

### Dev Officer Referral

- Method – referred
- Source – referral or unit meeting
- Interest in Gift Planning

# Involvement Coding

Activity ↑	Sub-Category	Participation Type	Start Date
OSUF-Gift Planning Legacy Plus-DO Referral	GP Referral-Interest in Gift Planning	Referred	12/18/2024
OSUF-Gift Planning Legacy Plus-Marketing Response	GP General Estate Marketing - Request Info	Responded	1/1/2016
OSUF-Gift Planning Legacy Plus-Marketing Response	GP Life Income Marketing-Request Info	Virtual Response	5/21/2021
OSUF-Gift Planning Legacy Plus-Proactive Response	GP Donor Initiated-Request Info	Virtual Participation	8/1/2019
OSUF-Gift Planning Legacy Plus-Proactive Response	GP Gift Form-Have Included	Virtual Participation	10/8/2023
OSUF-Gift Planning Legacy Plus-Survey Response	GP BCI Survey-Would Consider	Virtual Response	3/14/2017

# Project 2: Donor Pipeline

## Why Was Change Needed?

- No cohesive understanding/definition of the GP potential donor pool
- Outdated 20-year-old scoring model

## Project Objectives:

- Improve GP Score with relevant data
- Define donor pool to strengthen pipeline & resource advocacy

2025

# Project 2: Donor Pipeline

## Project Result:

- Defined pool and central resource for potential GP donors
- Customized scoring model using updated data sources

## Why it Matters:

- Strengthens pipeline development
- More effective donor identification
- Draws from involvement coding & other GP data
- Helps quantify scope of GP pool for leadership

# Gift Planning Pool

**DEFINED POOL OF POTENTIAL GIFT  
PLANNING DONORS USED FOR  
QUALIFICATION, FORECASTING, AND  
CAMPAIGN PLANNING**

## **Criteria:**

- Legacy Society Member
- Currently in Gift Planning Portfolio
- Involvement Coding
- “Planned Gift Details” Records

# Gift Planning Score

**LEVERAGING GP INVOLVEMENT CODING,  
AND OTHER KEY INDICATORS TO REVAMP  
OUR “GP SCORE”**

## **Key Factors:**

- Frequency of engagement with GP Office (marketing, proactive responses)
- Years of giving to OSU
- Contact Reports from GP Staff
- Age
- Presence of children
- IRA/QCD giving

# Project 3: Planned Gift Details

## Why Was Change Needed?

- Conservative BEP counting left some gifts unbooked
- No system to capture details on unbooked gifts

## Project Objectives:

- Create a tracking system to record information on unbooked planned gifts
- Rediscover and leverage existing data

Gifts

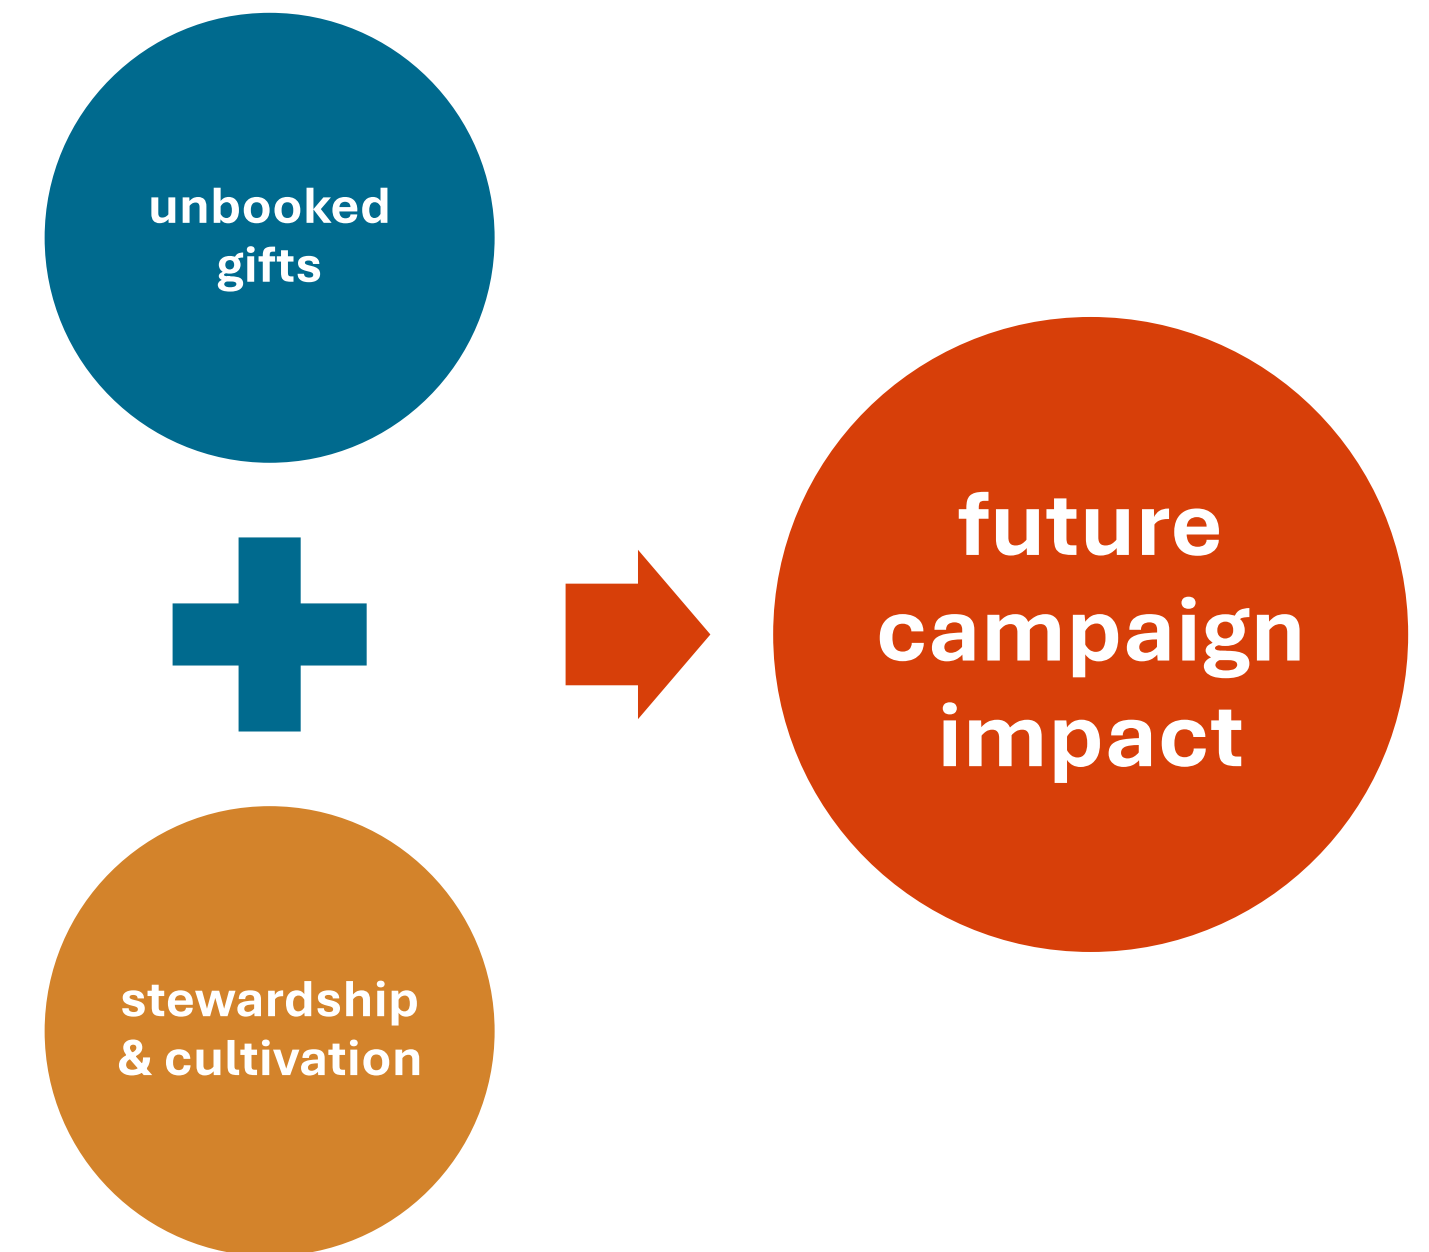

# Project 3: Planned Gift Details

## Project Result:

Tracking system built in CRM to record unbooked planned gifts

## Why it Matters:

- Reduces institutional risk
- Strengthens stewardship & cultivation
- Ensures donor intent is honored
- Quantifies future GP potential for campaigns
- Improves operational efficiency

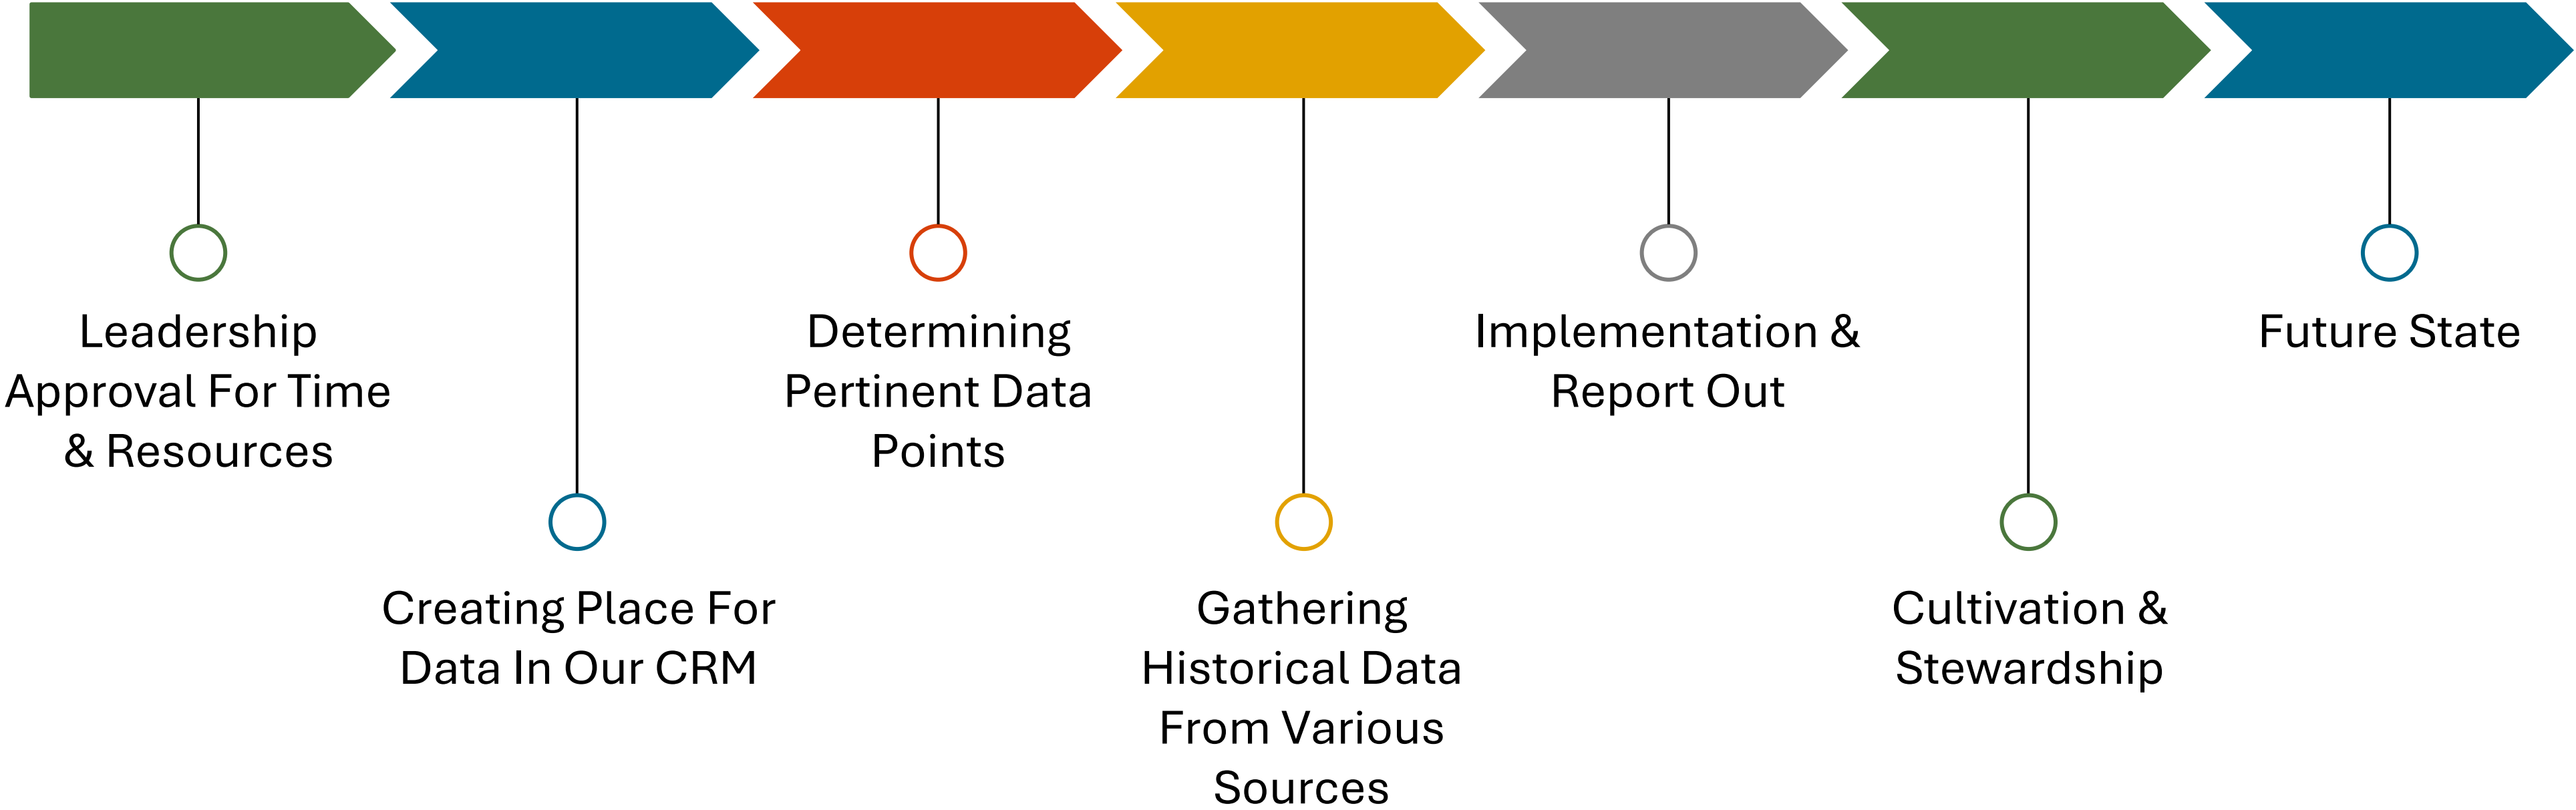

# Planned Gift Details Record

Name	Beaver, Benny_BEP	Booked Gift	<input type="checkbox"/>
Stage of Gift Conversation	Holding	Bookable in Future	Yes
Asset Type	Bequest Expectancy Pledge	Signed SOI	<input checked="" type="checkbox"/>
Total Gift Amount	\$50,000.00	Date of Signed SOI	9/8/2023
Approximate Gift Amount	<input type="checkbox"/>	Reason For Not Booking	Too young to count
Proposal	-----	Omit from GP Pool	<input type="checkbox"/>
Birth Year Youngest Donor	1965		
Description	Gift will be split between College of Liberal Arts and Athletics		

College Or Unit	Existing Designation	Amount ↑
College of Liberal Arts	History Department Unrestricted Fund	\$25,000.00
Athletics	Baseball Program Fund	\$25,000.00

# Project Timeline

# Unbooked Gifts Data Capture

POTENTIAL UNBOOKED PLANNED GIFTS

**\$263 million**

*identified in first round of historical data capture*

**109 (23%)**

*of this total have signed SOIs*

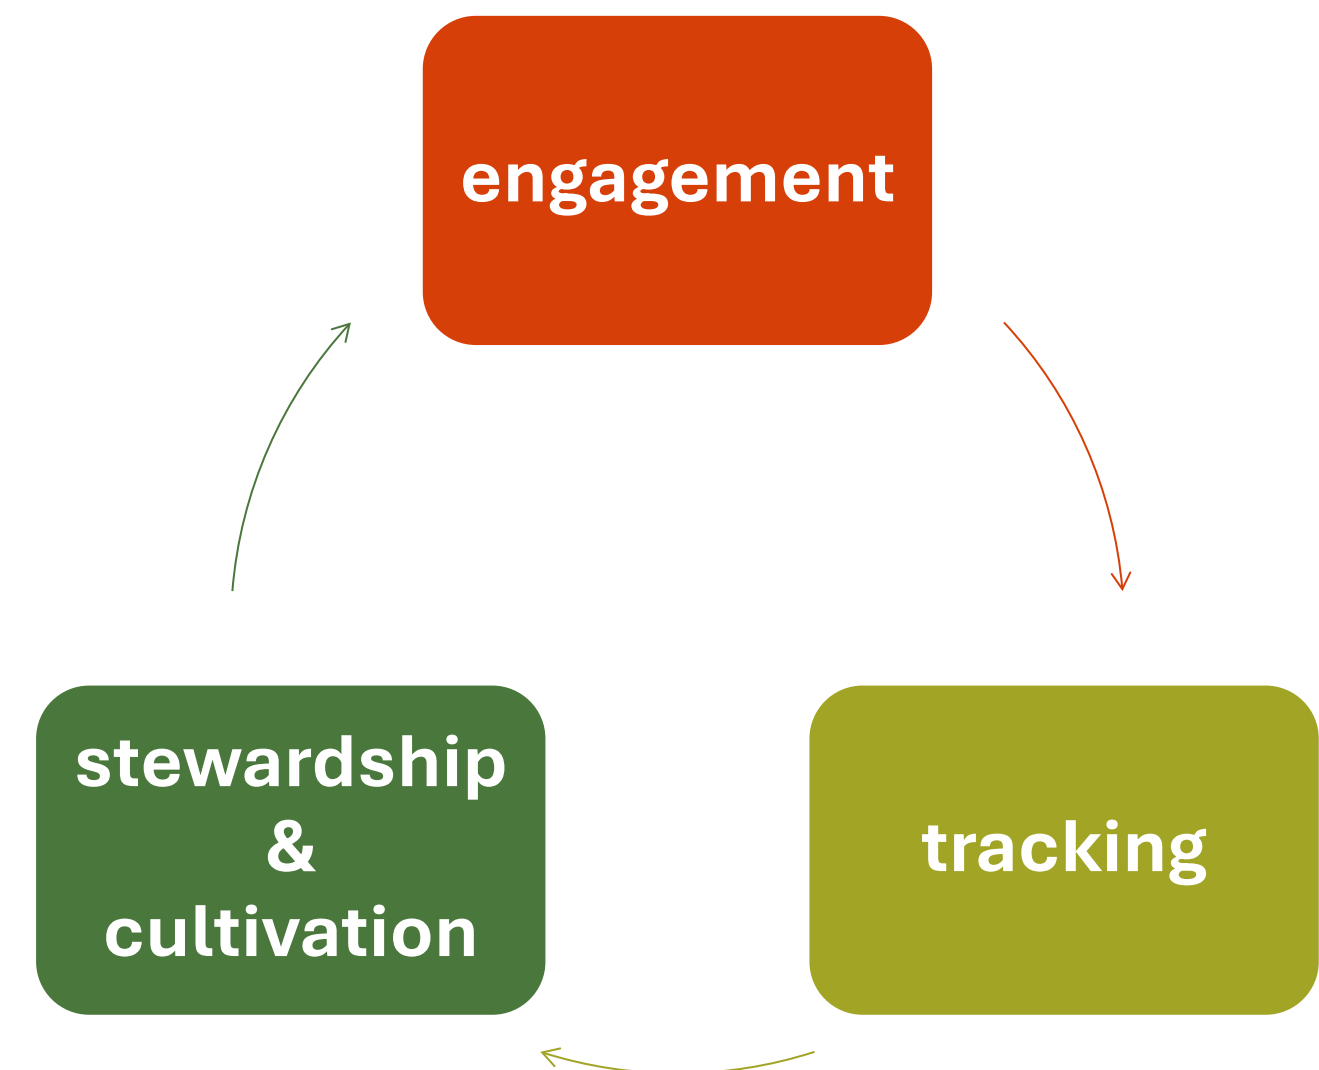

# Bringing it Together

FROM FIRST INTERACTION TO FUTURE CAMPAIGN:  
A CONTINUOUS PIPELINE JOURNEY

## Gift Planning Outcomes:

- Involvement Coding = capture activity
- GP Pool & Score = organize & prioritize
- Planned Gift Details = steward, cultivate & plan ahead

A person is riding a bicycle on a path through a lush, green park. The scene is bathed in the warm, golden light of late afternoon or early morning, with sunlight filtering through the dense canopy of large trees, creating a pattern of light and shadow on the grass and the rider. The rider is positioned in the lower center of the frame, moving towards the right. The background is filled with the thick foliage of mature trees, their branches reaching across the upper half of the image. The overall mood is peaceful and contemplative.

# Lessons Learned & Key Takeaways

Looking at the big picture and how it can apply to you

# Things We've Learned

- Drive efficiencies through **clear prioritization**
- **Upgrade** some systems, **build** others as needed
- **Reassess regularly** to keep processes fresh
- Success depends on **timing and leadership buy-in**

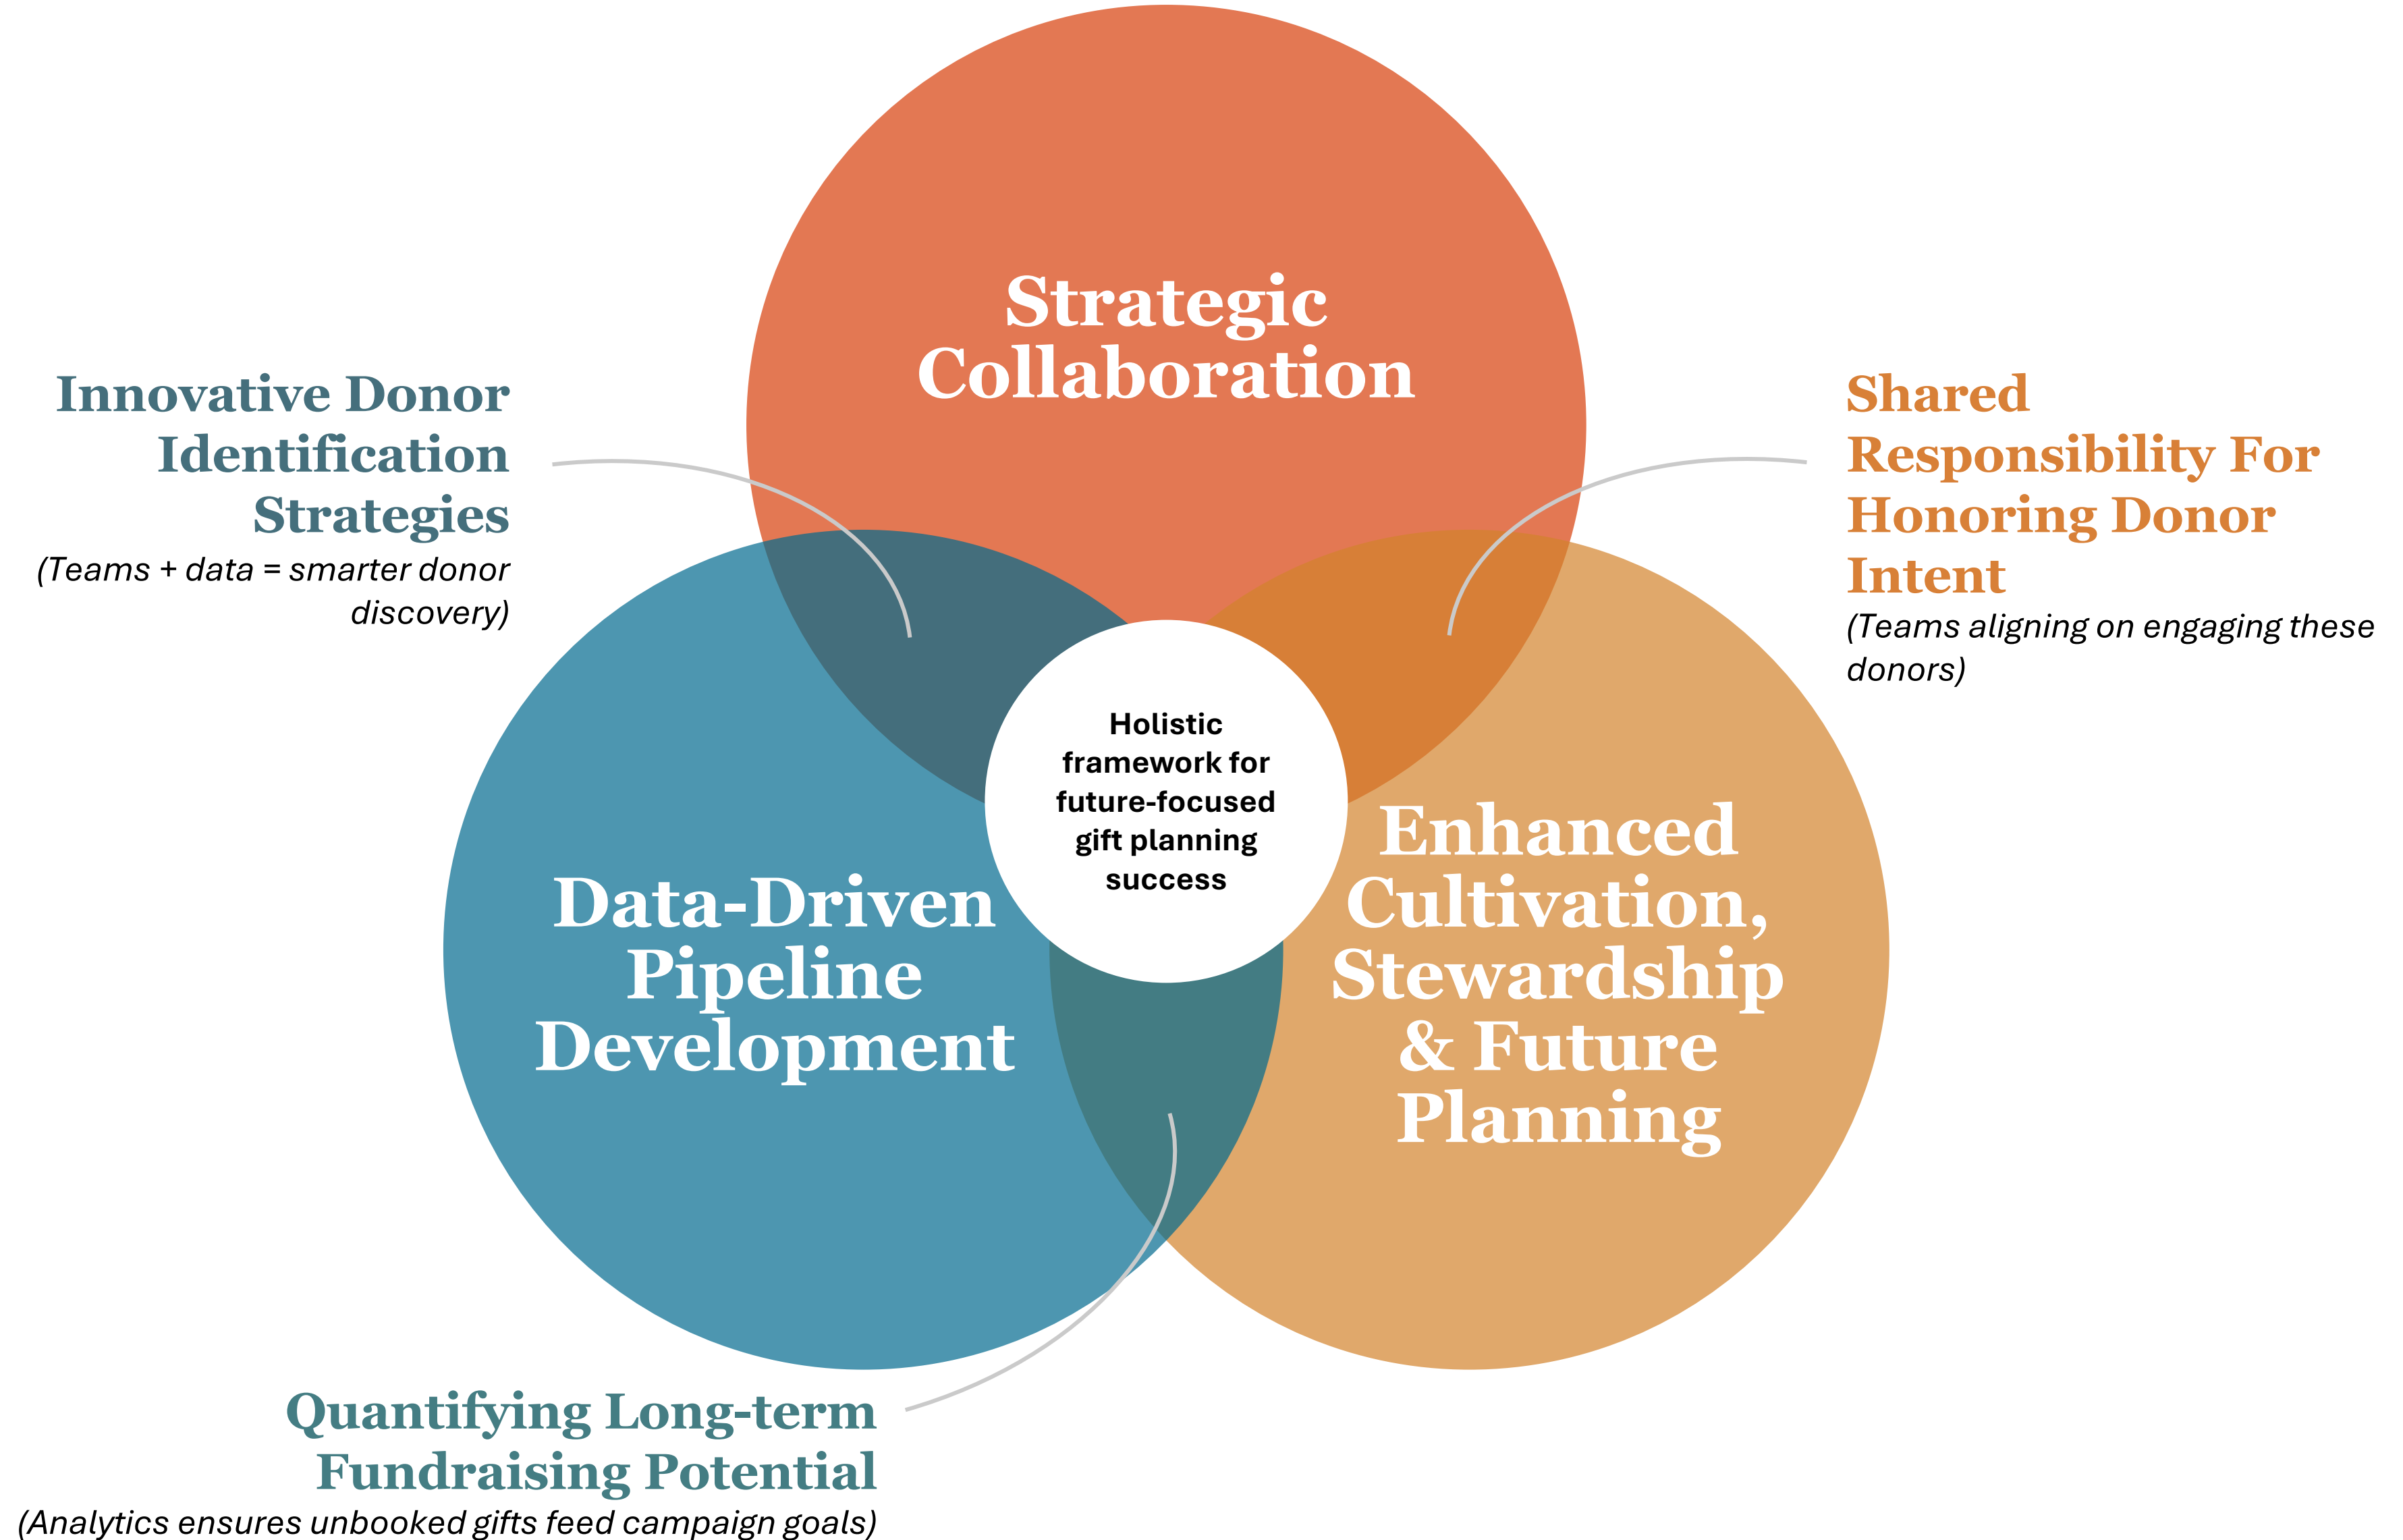

# Key Takeaways

- **Collaboration** fuels innovation
- Data transforms **pipeline development** and is crucial for **advocating** for your team
- **Stewardship & cultivation** today drives campaign success tomorrow

# Applying These Ideas Beyond OSU

**EVERY SHOP HAS UNIQUE CHALLENGES —  
BUT THE PRINCIPLES STAY THE SAME**

## Steps You Can Take:

- Define what matters & capture it consistently
- Review how constituents engage with your office
- Repurpose existing data in new ways
- Partner with peers & leadership
- Assess challenges, test small solutions, and scale

# questions & discussion

# thank you!
